

POKHARA LODGE

INTERNET, WI-FI, MOBILE TELEPHONES

The Essence of Tranquillity

It is our desire that guests at Tiger Mountain Pokhara Lodge take “time out” from the stresses and pressures of modern life – in the true spirit of being on holiday. We therefore encourage the concept of ‘no news, no stress.’

However, we appreciate that some guests may find it a greater stress not being in touch with the wider world! We therefore have some facility for internet connection.

Connecting to the Internet:

We have data cards (dongles) that connect to the USB port on laptops, iPads and similar. If you have a USB port, please use these data cards – they offer faster connection speed.

We charge Rs.500 per day, or part thereof (taxes extra). For longer stay guests, please ask for rates. We will make a charge for any damage to these devices, to cover full replacement cost.

Wi-Fi:

Mini WiFi hubs are available for use in the library and your room – we have a limited number of these so please bear with us.

We charge Rs.500 per day, or part thereof (taxes extra). For longer stay guests, please ask for rates. We will make a charge for any damage to these devices, to cover full replacement cost.

Mobile Telephones:

We ask our guests to refrain from using mobile telephones in the public areas, indoors and outdoors.

Please put your telephones in silent mode when outside your bedroom.

Laptops, iPads, etc:

We believe that, like many of life’s activities, using the internet is one of those things best done in private. We therefore ask that guests use their laptops and similar devices in their bedrooms or in Col. Jimmy’s Library.
